

expert in interior and
exterior shutters and blinds
friendly, reliable, professional service

www.treefrogshutters.com

Made to Measure

Our extensive shutter range caters for even the most unusual window shapes. Popular styles include arches, circles and gable installations.

Treefrog shutters can be custom-designed to match almost any radius or shape allowing you to enjoy your architecture *and* the light.

Treefrog provides the most in-vogue colours available. However, should you not find the colour that you desire, we also offer a custom colour service, providing a perfect match to any interior.

Roller Blinds

Our custom-made roller blinds offer a variety of light control options from translucent to blackout. The light control capability makes roller blinds extremely versatile and an ideal choice for any room.

Choose from our vast fabric selection that includes plain, textured, patterned and screen fabrics. Our blinds are easily fitted and can be motorised using Viewscope motors. In addition to modern remote controls it is possible to control blinds with wall switches, light sensors, timers, sun sensors, wind sensors and home management systems.

We make blinds we can be proud of, down to the smallest component. We only use quality fittings and materials to ensure we deliver a superior product – every time.

Our blinds provide timeless styling and a host of practical benefits: privacy, light and airflow control, and they will not clatter or flap.

Venetian Blinds

Treefrog offers a range of venetian blinds to suit your style and budget.

Our *Premium Venetians* in western red cedar provide lightweight strength and stability, and represent the pinnacle of window furnishings.

Key features:

- > genuine western red cedar
- > 4 mm slats
- > sanded end cuts
- > three lacquered finishes (light, medium or dark).

ALLwood venetian blinds are beautifully smooth, even-grained and crafted from genuine timber.

Key features:

- > genuine timber
- > a choice of stained, lacquered or painted finishes.

Faux Venetians are manufactured using modern, high-quality synthetic material that includes genuine *sensationALL* slats, valance and bottom rails.

Key features:

- > durable quality synthetic material
- > multiple colour options
- > UV fade-resistant.

All our venetian blinds are covered by our five-year manufacturer's warranty.

Treefrog shutters are designed for both interior and exterior use with a fully adjustable louver that delivers a contemporary, functional shutter.

Plantation Shutters

Plantation shutters can help create the look you've always wanted: contemporary and sleek, traditional or colourful.

All our shutters are made to measure. No window or door opening is too big or too challenging for an installation with a luxurious finish. Our plantation shutters convey the highest level of quality and style.

Key features:

- > ultimate light control
- > sound insulation
- > great insulation properties (cool in summer, retains heat in winter)
- > privacy
- > manufactured to suit.

Aluminium Shutters

Treefrog aluminium shutters are aesthetically pleasing, functional shutters designed for exterior and interior use. They allow the easy control of your light and views, privacy and ventilation.

Designed for the harshest of Australian conditions, our shutters have the highest quality tracking system on the market, using only high-grade stainless steel and UV-rated nylon components.

They are wind-rated to 180 km/hr with an option for a cyclonic wind-rated product if required.

Key features:

- > five stock colours plus woodgrain finish
- > option of custom powdercoating (full Dulux range)
- > 60, 90 or 115 mm blades
- > hinged, bi-fold, slide or fixed
- > maintenance-free seven-year warranty.

Other options include: fully fly-screened; internal winding systems; balustrade system; vertical blades; off-the-wall mounting brackets and security screen mesh inserts.

Create your own individual living space

Don't let the glare of the sun or the discomfort of wind and light rain keep you from enjoying your patio or gazebo area. Our exterior blinds are available in a wide variety of colours and styles to suit every taste and budget.

External roller blinds are available in full blackout, sun-filtering or view screen. You control how much of the outside you let in. All blinds are available in traditional crank-operated (manual) or motorised remote control (automatic).

Designed to impress, manufactured to last

All our blinds are custom-made and guaranteed to be the perfect fit and of the highest quality.

Treefrog provides the peace of mind that your blinds will perform now – and for years to come.
